

EQUALITY AND DIVERSITY POLICY

The Company's vision is for Global Rail Construction to be a successful, prosperous Company that fully utilises the creativity, innovation and talents of its Employees placing us at the leading edge of the sector. We want to create a supportive and inclusive environment where everyone can reach their full potential and have a real choice to participate in and contribute to our activities and processes, without prejudice and discrimination. We are committed to a culture where respect and understanding is fostered and the diversity of people's backgrounds and circumstances will be positively valued.

Implementation of this Policy will help us to achieve this vision. Having greater equality and diversity will bring many benefits to the Company achieving greater efficiency and better performance from staff. This vision will help us to more effectively address the needs of different groups in the Company.

The Company is made up of a wide range of people with diverse backgrounds and circumstances, which we value and regard as a great asset. However some groups experience discrimination and disadvantage that has a negative effect on their quality of life. Those most often affected are disabled people, women, young and older people, those of a particular sexual orientation (same sex and/ or opposite sex) and transgendered people (gender reassignment), people of faith or of no faith, black and minority ethnic people and part-time workers.

The company requires that all employees, contractors and sub-contractors irrespective of their background and or circumstances have sufficient working knowledge of the English language (ability to read, write and communicate in the English language) to be able to safely carry out their work and comply with instructions.

Legislation protects the rights of these groups to ensure that discrimination is prevented and that they are given equal access to employment, education and other services. We are committed to comply with all current and relevant anti discrimination legislation. By adopting this Policy the Company accepts its responsibility to ensure that discrimination does not take place and that everyone in the Company is treated fairly and equally. We have therefore made the commitment to create an inclusive environment where discrimination is challenged and equality is positively promoted.

We ensure our company policy is known by all current and potential Employees, Contractors and Sub-contractors and would consider disciplinary action against any Employees who do not comply with this company policy. Non-compliance by Global Rail Construction Contractors and or Subcontractors may result in their disqualification from future works.

Employees who may feel they have been discriminated against have the opportunity to discuss any grievance with the Management team.

This policy has been endorsed by the Management team at Global Rail Construction Limited who take direct responsibility for its execution.

Signed on the 14th May 2010 for and on behalf of Global Rail Construction Limited.
