

## GOOD NEIGHBOUR POLICY STATEMENT

Global Rail Construction place people at the heart of what we do, from our Employees, including Contractors, Sub-contractors, Clients and, to our neighbours and the wider community.

This policy describes the organisation and arrangements which will be put into place to ensure all due consideration is given with regard to our works impact on neighbours and the neighbouring environment.

It is the clearly defined intent of Global Rail Construction to ensure the assessment of our works likely impact upon its neighbours and the neighbouring environment. The Company will create an Environmental Impact Register for each project and establish a project team who will deal directly with this ongoing requirement. The project teams will be provided clearly defined personal roles and responsibilities in this respect.

The Company and specialist Contractors, Sub-contractors shall undertake to do all that is necessary in our duty of care to others by identifying any operations necessary to the project which may result in an impact regarding:

- noise
- dust
- vibration
- public protection – vehicle/plant and pedestrian interface
- social issues - verbal abuse, obscenities, protection of minority groups, etc

The overall objective is to eliminate/reduce these impacts so far as reasonably practicable. The Project team shall create and nurture good relations with project neighbours by establishing clearly defined routes and methods of communication and liaison.

This policy shall be conveyed to all employees, the Project team, Contractors, Sub-contractors and all other persons affected by it or required to implement its intent. This shall be achieved by team briefings and site safety induction.

The policy shall be reviewed in line with the Environmental Management Policy.

This policy has been endorsed by the Management team at Global Rail Construction Limited who take direct responsibility for its execution.

Signed on the 14<sup>th</sup> May 2010 for and on behalf of Global Rail Construction Limited.
